

Muhammad Faeez

AI/ML Engineer

CONTACT:

☎ +92 3249475254

✉ faeezsalman939@gmail.com

📍 Lahore

SKILLS:

- Python
- FastAPI
- RAG
- LLMs
- Gen AI
- PyTorch
- NLP
- NumPy
- Pandas
- Scikit-learn
- Data Analysis
- Data Mining
- Prompt engineering
- Streamlit
- RLHF workflows
- Vector DBs
- AWS
- GCP

EDUCATION:

BAHRIA UNIVERSITY 2022-2026

Bachelor of Science in Information Technology

CGPA: 3.82

LANGUAGES:

- English
- Urdu

PROFILE:

AI/ML Engineer with hands-on experience in building and evaluating machine learning and NLP models using Python, Scikit-learn, and Hugging Face. Skilled in data analysis, model development, and deploying AI applications such as chatbots and predictive systems.

EXPERIENCE:

AI INTERN - WAMO LABS

AUG 2025 - NOV 2025

- Fine-tuned and evaluated Large Language Models (LLMs) using structured benchmarks
- Compared model-generated Pull Requests (PRs) against original issue descriptions and human-written test cases
- Assessed the correctness, relevance, and overall quality of model outputs
- Completed RLHF (Reinforcement Learning from Human Feedback) evaluation forms to guide model alignment
- Contributed to improving model accuracy and ensuring outputs better match real-world requirements

AI/ML INTERN - DEVELOPERSHUB

JUNE 2025 - JULY 2025

- Built and evaluated ML models for classification and regression (Logistic Regression, Random Forest, Linear Regression) on real-world datasets
- Performed data preprocessing, EDA, and visualization using Pandas, Matplotlib, and Seaborn
- Fine-tuned transformer models (BERT) for NLP tasks using Hugging Face; improved performance using accuracy and F1-score metrics
- Developed AI chatbots using LLMs with prompt engineering and basic safety handling for healthcare use cases
- Designed end-to-end ML pipelines with Scikit-learn, including preprocessing, hyperparameter tuning (GridSearchCV), and model export
- Deployed interactive ML applications using Streamlit/Gradio and maintained projects with clean, documented code on GitHub
